# CLUB READINESS

In order to support the success and safety of all registered members, it is important that participants are “Club ready.” To assist in determining if a child is “Club ready” the following criteria have been developed:

- Able to participate in Club programs independently or with minor accommodations.
- Age 4\*\*-18 years old.
- Able to use the restroom independently or with minimal verbal prompting.
- Able to take direction and instruction from a staff.
- Comfortable with, and able to interact in a group environment.
- Can successfully participate in a group with an adult to child ratio of up to 1 to 20 (one adult to every twenty youth)
- Interacts and participates in programs in a manner that is physically and emotionally safe for themselves and others.
- Does not require physical intervention for redirection, direction, assistance, or for any other reason.

\*\*If you believe that your child may not be ready, or have questions about the above, please feel free to schedule a meeting with the Co-Site Directors for clarification. 4 year olds need to be fully bathroom trained and have attended, at minimum, one semester of pre-school.
